

Advanced BioTech

Developer of MultiFIX® and BioWorld Products®

PERFORMANCE GUARANTEE

Our goal is simple - The grower always wins with MultiFIX!

Great product formulation – great Money Back Guarantee for our growers benefit-

- Purchase an amount of at least 40 gallons of MultiFIX for your farming operation.
- Use the MultiFIX as directed.
- Compare the MultiFIX treated areas with a comparable area not treated with MultiFIX.
- Review the overall costs of production and income for both areas - primarily:
 1. Higher Crop Yield
 2. Income from Sizes / Grade / Sugar or other Bonus
 3. Quality Bonus
 4. Savings with fewer Pest Issues
 5. Less Pesticide / Herbicide application costs
 6. Water cost savings – use less
 7. Other Observations
- In the extremely rare occurrence that MultiFIX did not provide an increase of 150% of the product cost, our firm will replace the original amount of MultiFIX purchased to be applied to the same areas as the prior applications.
- Using the same criteria as indicated above for the first harvest, if the grower does not benefit a minimum of 150% of the original MultiFIX investment; a full and complete refund will be issued to the grower.
- Example:

#1 MultiFIX investment of \$20 per acre returns minimum 150% = \$30.

#2 MultiFIX investment of \$240 per acre returns minimum 150% = \$360.

Most clients get 4 to 20 times return depending on the type of crop. Therefore it is easy for us to have true confidence our MultiFIX formulation to perform and improve the farming operation.

We appreciate the an opportunity to assist you.

Dale P. Barnes
President
